

Specialty Organic Chemicals for Research and Process Chemistry

- ⇒ Start up through Commercialization
- ⇒ Proactive Project Management
- ⇒ Custom Packaging
- ⇒ Kilos to Metric Tons
- ⇒ Deep Supply Chain
- ⇒ Our Products to Your Specifications

**Over 2000 organic chemicals
in our product base**

ISO 9001:2008

GFS is a SOCMA Tier II Chem Stewards organization focused on safety improvement practices, waste minimization, recovery and controls

GFS Organics® is a registered trademark of GFS Chemicals, Inc.

**A U.S. Based Manufacturer
Serving FORTUNE 500 Companies FOR OVER 80
YEARS**

- **ALKYNES AND DERIVATIVES**

Acetylene derivatives (alkynes) building blocks are the backbone of the GFS organic product line. We are a leader in the commercialization of specialty alkynes and derivatives including: Aromatic, Terminal, Internal, Alcohols, Ketones, Acids, Conjugated

- **GRIGNARDS AND INTERMEDIATES**

Organoanometalic, Vinyl, Alkynyl, Aryl, Alkol Grignard products are made on demand and available in bulk or in cylinders.

- **ORGANOMETALLIC CHEMISTRY**

Mg, Li, Na

- **HALOGENATED COMPOUNDS**

GFS has the capability to handle hydrogen chloride, iodine, bromine and other halogenating chemicals.

- **HETEROAROMATICS**

Phenanthrolines, Bipyridines, Triazines, Ligands, Quinolines, Indoles, Pyrimidines, Teryridines

- **HETEROCYCLES**

- **OLEFINS**

GFS is the single supplier for many olefins (ENEs) on the market today. We can supply various olefins of geometric specificity (cis or trans), and we supply individual isomers of many olefins. Our customers benefit from our vertical integration in this area.

- **SILANES**
